NOTED BY J. TURNER, WILLIAM WORKMAN, Per FRANCIS W. TEMPLE, his Attorney in Fact. je9 2 1/2

Los Angeles Herald

SUNDAY, JUNE 13, 1875.

THE Republicans of the Third District have nominated C. B. DENTON, for Congress. LUTTRELL will beat him about fifteen hundred votes.

THE Express says PHELPS, the Republican candidate for Governor, is a good speaker. Loud is the word. When he was a Mormon preacher the saints used to regard him as one of the best roarsers in the camp.

THE San Diego delegation to the Democratic State Convention are instructed to support JOSE G. ESTRELLA for State Treasurer. The Los Angeles delegation and we presume those from other Southern Counties will also support him. His nomination is almost assured.

SENATOR JONES has arrived in San Francisco, and we presume it will be in order for some of the enterprising newspaper reporters to interview him on the subject of his bankruptcy. The people down this way are a little curious to know whether in that little game of bluff between him and JAY GOULD he got away with GOULD or GOULD got away with him.

AN effort is being made to induce HENRY LARKIN of El Dorado County, a life long Democrat, to accept the nomination of the Independent party for Governor. It is hardly probable he will accept, but if he should, it would be with the express understanding that he did so as a Democrat without surrendering a particle of his old time principles, and on these conditions it will be difficult to see wherein the party will be doing better than to support the regular Democratic nominee. As a strategic effort toward carrying the State, it would prove a lamentable failure. Democrats would not support a man who had accepted the nomination of another party and Independents could not be induced to vote for a candidate who accepted the nomination with the express understanding that in loaning his name he surrendered none of his Democracy.

A Fraternal Day.

The 2d of June—the occasion of the dedication of the Masonic Temple—was a fraternal day in New York City. No event in Masonic history in the new or the old world has occurred during the last century around which will cling more pleasant memories than the gathering of the brotherhood in the great city of our nation. Under the eyes of half a million spectators, twenty-six thousand intelligent and upright men—twenty-six thousand brothers—marched steadily forward over the route of the procession. Each of these twenty-six thousand men represented the idea of sociability and protection; of charity and good will. Each of these twenty-six thousand men is bound to obey a law which makes him the guardian of his Masonic brother's welfare and the protector of his widow and orphan. Each of those twenty-six thousand men is the advocate of good and the enemy of evil; the champion of truth and the opponent of error. He is under an obligation which he will obey to stand by the right and fight vice in every shape. No twenty-six thousand men ever trod the streets of New York together, in whose breasts dwelt a truer feeling for each other or a kindlier one for all the world.

Another Curious Document.

We have not seen the full text of the platform adopted by the Republican State Convention, but judging from the summary which has been telegraphed we are inclined to regard it a mass of contradictions—a sort of thimble-rigging affair, intended to throw the little joker which you sometimes see and sometimes don't see. GRANT'S administration is endorsed, which is shouldering an immense load of mismanagement which must be attributed to ignorance or malice. It pretends to accept the President's letter on the third term as a final settlement of that question, but how it was settled we are left in the dark until we come to the resolution limiting the Presidential tenure of office to two terms, which was opposed by GRANT, and being opposed by him was of course voted down. The defeat of this resolution is strong presumptive evidence that the Republican party of California is not averse to GRANT'S running for the third or even the tenth term. The plank setting forth that the cost of State and county governments should be reduced one-half is not new. It is an old, rotten, flimsy dodge, which has been resorted to by every Republican convention held within the past twelve years. They always preach economy until election and practice extravagance from the time they get into office until they are invited by the people to step down and out. The demand that the Legislature assume control of the lakes and rivers of the State is a good idea, and was furnished the Committee on Platform and Resolutions by the HERALD. We are pleased to see that the members of the Convention have read and studied our articles on the necessity for a State system of irrigation. The question must become one of great importance in a short time, and the party devising and inaugurating the best system, will attain great strength therefrom. The thunder and blitzen hurled against the Central Pacific Railroad Company and the de-

mand that the people shall exact pledges from candidates for the Legislature that they will reduce freights and fares, is stolen from the "reformers," who used it so successfully to fight their way into the last Legislature; and, once there, forgot their pledges and the people. This sort of roar has become so familiar that it frightens no one. But the speech of GORHAM, in support of this resolution and his bitter denunciation of the railroad company, is the most amusing feature of the play. It reminds one of the devil playing at preaching. GEO. C. GORHAM denouncing the railroad company! Why, it's unnatural! Preposterous! It is the pauper swearing at the alms-house; the beggar striking at the hand that gives him a penny. Oh, no; it cannot be. GORHAM is a good little boy, and wouldn't strike his father. He said that plank was "only what was called for," by which he meant that it was the trouble with which the "reformers" caught their flies, and he wanted to try the same game. The resolution that classes all and colors are entitled to equal educational facilities, is an artfully baited hook to catch the negro vote. They caught other game with that same bait two years ago, but our colored fellow-citizen does not yet occupy a promiscuous seat in the public school. The announcement that all attempts to prevent colored citizens from exercising the right of suffrage must be met as efforts to revive the civil war, sounds well. It has a melo-dramatic tone and is a sort of semi-official announcement that the war has not ended and shall not if the Republican party can prevent it. As a whole, the platform is a tissue of demagogical claptrap such as only men like SARGENT, GORHAM and PHELPS could weave together; it is mainly and frankly in nothing; it is evasive, hollow and deceptive in everything. It will deceive no one save its authors, and the intelligent voters of California will throw it aside as a specimen of hypocrisy wanting even the merit of partial concealment.

Honest Assessment.

For once in her history, San Francisco seems to have the promise of a fair and honest assessment of her property. So far as the assessment has progressed, the assessable property is more than double that of last year. The striking feature developed is that while the property of the poor man and the man of moderate means retains about the same value, that of the millionaire and banks and other corporations is found to be double and in some instances ten times greater than shown by the Assessor's books one year ago. It is now believed that the assessment of San Francisco will aggregate this year double that of any previous year. So much for an honest assessment of San Francisco. The rascality which has prevailed in San Francisco in the evasion of taxes heretofore has no doubt been practiced to a certain extent in every county in the State. The exposition in the great city furnishes a strong hint to the people of the interior and offers the remedy for the cessation of excessive taxation. The remedy is in the hands of the Grangers. Let them resolve that a uniform system of taxation shall prevail throughout the State—that the man of \$50,000 shall be taxed in proportionate ratio with the man of \$1,000—and we shall have a source of revenue capable of meeting the expenses of government, even though the rate of taxation does not exceed one-half the present figures.

Questions for Pomologists.

EDITOR HERALD: There are so many conflicting opinions in regard to the profits of the cultivation of tropical or semi-tropical fruits that I desire to have this question settled. I here make the request of gentlemen who are engaged in the culture of semi-tropical fruits, and who understand the business thoroughly, to furnish me at their earliest opportunity the facts and figures of the cost of cultivating five acres of oranges, lemons, limes, olives and English walnuts. Give me the cost of each variety separately, commencing with the cost of the seed and cost of preparing the ground, and a continuation of the costs in every particular each year until they commence bearing; also the value of the first crop of each succeeding year until the tree is fifteen years old, calculating in the mean time the interest on the investment. It will be expected of those persons who may be pleased to answer this communication that they will not confer together, but give the information desired from their own personal knowledge. They will also please give a fair statement of the cost of cultivating five acres of grapes and the profits arising from the same, deducting expenses. Oranges, I am told, can be transplanted when they are seven years old. Which would be the most profitable—to raise them from the seed or to buy the trees seven years old? This is an important matter to be considered for intending immigrants of advanced age. JAMES DE LONG. Los Angeles, June 11th, 1875.

Mr. J. A. Sawtelle, formerly leading man in Chicago, Salt Lake and Virginia City theatres, but now manager for Miss Kate Denin, is at the Backman House. Mr. Sawtelle has recently completed a successful starring tour of British Columbia, and we predict for Miss Denin a great triumph.

Read the following testimonial: Mr. Sawtelle is himself an actor of fine presence and excellent judgment. His impersonations are entirely free from rant and extravagance, the besetting sin of young actors, and at the same time full of fire and spirit. As a manager we doubt if there has been one before the people of our city who so studiously sought to please and who so rigorously denied all semblance of anything that could give offence to the most refined taste.—Des Moines (Iowa) Republican, Nov. 17th, 1874.

LETTER FROM SANTA ANA.

Answer to Observer—Illinois and California Compared—Worth not a Necessity—Energy and Integrity the only Requisites—All Honest Workers Welcome.

EDITOR HERALD: In yesterday's HERALD we noticed a letter from "Observer," who two years ago sold his "beautiful home" in Centralia, Illinois, and came to California, and still he is not happy.

LIFE IN ILLINOIS. In our boyhood days we chased the deer where Centralia now is situated, and being interested in property near there we feel disposed to tell what we know of Los Angeles county and Centralia. We landed in Los Angeles January 28th, 1874, and have never regretted the change.

PRICE OF LANDS. As to the price at which lands could have been bought in the limits of Los Angeles since he came here, with an abundance of water, we refer him to our friend Judge O'Melveny, who lived for years in Centralia. As to the welcome we received here we had no reason to complain, and we had no \$25,000 either.

WORTH MAKES THE MAN. A man's position in society here, as elsewhere, is according to his worth. If he was worth nothing at home he will be ditto here. People have to work the "year round" here as well as in Centralia. We have yet to see the first sober and industrious man begging for work since our stay here. If "Observer" was here to "pick up a living" he struck the wrong place. Gold notes don't grow on bushes here more than they do on "Crooked creek," near Centralia.

LABOR OF FARMING. We spent sixteen years on a farm near Centralia, and know something about farming there, and most emphatically deny it being attended with more labor here than there; and we venture the assertion that more money is yearly made here or in Gospel swamp from ten acres planted in corn than fifty acres of the best land in Clinton or Marion county, Illinois.

ADVICE TO FRIENDS. We tell our friends and relatives to do as we did. If you feel disposed, come here to live; if not, stay away. "Observer" need not "slip around silly" among his friends to sell his farm. We have a farm within six miles of Centralia, containing over two hundred acres and well improved, which we will exchange for land in Los Angeles county. Send "Observer" to Santa Ana and we will show him vegetation that will put anything near Centralia to shame. Respectfully, &c. DR. M. S. JONES. Santa Ana, June 11th, 1875.

A Sunkin Safe Recovered.

NORFOLK, Va., June 11th.—Captain Brown arrived here to-day in charge of the iron safe of the U. S. Ship-of-War Cumberland, sunk in Hampton Roads by the Confederate ram Virginia, in 1862. Divers have been on the wreck ten years, having in view the recovery of the safe. The lucky man had not been at work 48 hours when he found it. The water at the place is 78 feet deep.

Foreign News.

LONDON, June 11th.—The Daily News reports that a crisis is imminent at Athens, which may result in the abdication of the King.

HAVANA, June 11th.—News has been received here that a terrible earthquake in New Granada. The destruction was the greatest in the valley of Cuetana to the Venezuela frontier. It is reported that 16,000 lives were destroyed.

PARIS, June 11th.—The Workmen's Societies have opened a national subscription to provide for sending a delegation to the Philadelphia exhibition.

BERLIN, June 11th.—In the Federal Council to-day, the President of the Imperial Chancellery submitted several votes of supply, to meet expenses for the proper representation of Germany at the Centennial.

Loss of the Steamer Vicksburg.

MONTREAL, June 11th.—We have the following particulars of the loss of the steamer City of Vicksburg, which was sunk by the ice between Montreal and Liverpool on the 1st instant. About 40 persons were drowned. The steamer Vicksburg was an iron vessel, and considered the best ship of the Dominion line. She was about 2,500 tons. Value, \$325,000; fully insured in England. Florence & Co., agents of the Dominion line, say the Vicksburg had only 15 steerage passengers on board.

New Railroad Route.

WINNEMUCCA, Nev., June 11th.—W. H. Farrar, with the surveying party who have been engaged in taking altitudes along the line of the proposed Oregon and Winnemucca Railroad, arrived here yesterday. He came through Warner's Pass, touching at the head of Goose Lake. The general character of the route is favorable, there being no high ranges Southeast of the Cascade mountains. Mr. Farrar considers the route through Surprise and Fandango valleys practicable to Goose Lake. No serious difficulties will have to be encountered in grading the road.

Suicide at Marysville.

MARYSVILLE, June 11th.—Ernest Thorne, proprietor of the Lafayette Restaurant, was discovered at 11 A. M., to-day, lying on the floor of his room, dead. From the appearance of the room, he had been occupying the bed, got up in his night clothes, sat down on the floor, placed the muzzle of a pistol in his mouth and fired, the ball passing upward through the head and out the crown. Deceased left a note, showing that he had contemplated suicide for some time.

NEW TO-DAY.

To Smokers—Please Take Notice.

That during the month of June I intend to sell out my entire stock of cigars, tobacco, pipes, gent's furnishing and fancy goods at greatly reduced prices, in order to make room for an entire new stock to come in next month. Now is your time to buy bargains. Cigars sold by the box from \$1 upwards. At retail you get two Havanas for 15 cts.; the finest brands \$ for 50 cts., 25 cts., each and 5 for \$1. The best fitting shirts and underwear in this city at very low figures. This is no humbug. Call in and you will at once be convinced. All the above-mentioned articles must be sold this month. Don't forget the "identicals." T. GOLDSMITH, 25 Main St., under Backman House, and at 107 Main St., next to W. F. & Co's Express. ml1

Los Angeles Herald.

SUNDAY, JUNE 13, 1915.

San Diego Items.

(From the World, June 8th.)
Mr. Frank Kiebreugh has returned from Los Angeles to this burg. He reports a big crowd at Los Angeles and little for them to do. We have heard that it was dull there, as well as elsewhere.
An Indian by the name of Leonardo came into the campgrounds on the Western outskirts of the city last night, and complained of being unwell. He stayed there all night, and on getting up this morning was asked to take some coffee by the Captain, but declined, and wrapping himself in his blanket, laid down and like a Roman Senator, died in decency. He was buried to-day.

The citizens' mass meeting at Teutonia Hall last night to make final arrangements for the celebration of the Fourth of July was very numerous, and L. B. Wilson was chosen Chairman of the meeting and B. A. Fickas Secretary. Mr. A. F. Hinchman was selected as President of the Day, Wallace Leach Orator of the Day, and Capt. J. A. Gordon Marshal. The members of the Harmonie Band were chosen as an Executive Committee to appoint all necessary sub-committees and make such arrangements as they may find necessary. The names of the various committees will be made public in a few days.

(From the Union, 8th.)
Since the 1st of May last there have passed over the line into Lower California, 40,000 head of sheep, 5,000 head of cattle, and about 1,000 head of horses.

Gabriel Cuyo, the murderer of Rogerson, who has been under medical treatment for some time for sickness of body and mind, tried to escape yesterday, but was caught at it. There is method in his madness, it would seem.

The San Diego Water Company held its annual meeting last evening. The following Board of Trustees was elected: E. F. Spence, H. Mabury, J. H. S. Jamison, D. W. Briant, Jacob Grundy and H. M. Covert. The Trustees elected H. M. Covert, President, J. H. S. Jamison, Secretary and E. F. Spence, Treasurer of the Company. The capital stock was increased to \$250,000, all the additional stock being taken by present stockholders. We may now state that the Company will proceed to the work of bringing in the water from the San Diego River at an early day.

(From the Union, 11th.)
The U. S. Lighthouse Tender Shubrick arrived in port yesterday. The U. S. Inspector of Lighthouses is on board.

Governor Pacheco has commuted the sentence of Jesus Dorio, convicted of the murder of Johnson, from death to imprisonment for life. A dispatch to this effect was received by Sheriff Hunsaker yesterday. Dorio, together with another Indian, Jose del Carme, was sentenced to be hung on the 15th inst. The extreme penalty will probably be carried out in the case of the latter.

(From the World, 11th.)
The Ancon hence for San Francisco yesterday took as freight 78 tons wool, 105 hides, 1 box speight natural history, 37 bds fish, 38 cases new crop honey, and a large list of miscellaneous merchandise.

San Bernardino Items.

(From the Argus, 12th.)
Several thousand sheep belonging to John Miller passed through town yesterday on their way to the Mojave river. John now has some seven thousand sheep.

The Silver Mountain company now propose to run a tunnel into the side of the hill, some three hundred feet believing that they will obtain a large flow of water. Success, gentlemen.
We learn from parties who profess to know that the Chino ranch will be cut up into small farms, and that a town will be laid off. The surveying will be commenced this coming week. This movement goes to confirm the report of the change of route of the Los Angeles and Independence R. R. published in the Argus a few days ago.
Messrs. Maybury, Patrick and Spence, members of the Commercial Bank of San Diego, arrived in this city on Thursday evening last, and yesterday took a look through our valley; they came back thoroughly delighted with our location, water supply and climate. Mr. Patrick has been in our city before, but the other gentlemen have not.

Dissension Among the Dollies.

There appears to be a breach in the ranks of Dolly Varden, growing out of the usurpation by the *Bulletin-Call* of the functions of the "People's Independent" party. It appears that George K. Fitch and J. F. Swift named all the delegates from San Francisco county to the Dolly State Convention, entirely ignoring Senator Booth and excluding all of his "boy friends," whereas Mr. Booth waxed exceedingly wrath, and told Fitch and Swift that the list must be reformed. His protests were without avail and Messrs. Higgins, Chute, Gannon, Casey and Noser are not in their own class language, according even a "snootful." These last named gentlemen were among the most efficient supporters of the "Independents" at the last election, and without their aid it will be a hard job for the Dollies to maintain an organization. Indeed, how any party of purity and reform can subsist without the support of Higgins, Casey, Chute, Gannon and Noser, is hard to understand. Those gentlemen have for years been conspicuous as reformers and are naturally fitted to associate with Messrs. Booth, Pickering, Fitch and Swift.—*Examiner.*
